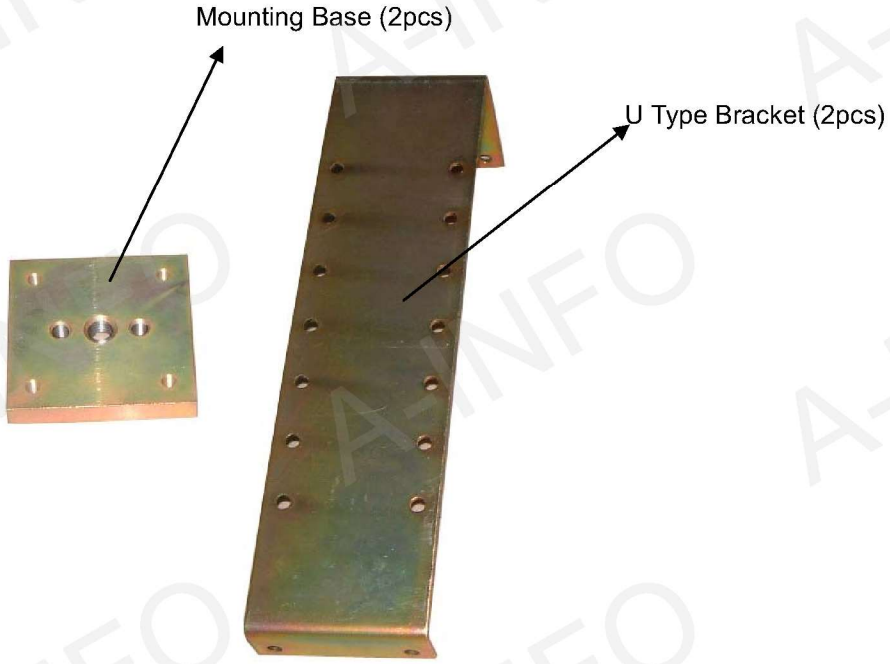
Parts of the mounting bracket



LB-90-25-A(1 pc)

Mounting method

1. Mounting the U Type bracket on the antenna

2. <u>If you plan to install antenna on tripod:</u> > There are 7 mounting holes on each side of the U Type bracket (total 14pcs). Put the mounting base on any hole you prefer, tighten by screws(Supplied).

3. <u>If you plan not to install antenna on tripod:</u> > You can just install the U type bracket on the place you plan, tighten by screws (Supplied).

Notes: Two type thread hole available on mounting base, smaller one is 1/4"-20UNC, and bigger one is 3/8"-16UNC.

4. Now, you can install the antenna on the tripod.
